Spectrum Subscriber Annual Privacy Notice (2023) Effective: September 1, 2023

Your privacy is important to Charter. We value the trust you place in us when you subscribe to and use our Spectrum-branded cable video, internet, phone, and/or mobile products and services (collectively, the "Spectrum Services").

This Annual Privacy Notice contains information that we are required to provide you under Federal law.

Additional information regarding our privacy practices are available on our full privacy policy, available at www.spectrum.com/privacy. We encourage you to review the full Spectrum Privacy Policy for more information about our privacy practices, including related to state-specific rights that you may have.

WHEN THE ANNUAL PRIVACY NOTICE APPLIES

The Annual Privacy Notice only applies to subscribers of one or more of the Spectrum Services provided by Charter Communications Operating, LLC and its subsidiaries. Depending upon the Spectrum products and services to which you subscribe, parts of this Annual Privacy Notice may not apply to you. If you have questions about this Annual Privacy Notice, please contact us directly using the information in the "How to Contact Us With Questions About This Annual Privacy Notice" section below.

Some Spectrum products and services may have additional privacy practices that are described in product or service specific sections in the full Spectrum Privacy Policy www.spectrum.com/privacy or may be provided to you in different ways, such as contracts for Spectrum Enterprise services. To the extent there is an overlap between the privacy disclosures in this Annual Privacy Notice and a product or service-specific privacy notice (e.g., the Spectrum Biometric Data Privacy Notice), the privacy disclosures set forth in the product or service-specific notice or agreement will apply and control with respect to such product or service.

Sometimes you may access websites (e.g., news websites, shopping websites, internet search engine, etc.) or services (e.g., non-Spectrum email and instant messaging services or video streaming services, gaming services, data storage services, etc.) that we do not own or control through the Spectrum Services. These non-Spectrum websites and services may collect data or personal information about you and your online activities. Spectrum does not control and is not responsible for what these other parties do in connection with their websites or online services, or how they handle your personal information. We encourage you to read the privacy policies of any non-Spectrum websites or services you use.

WHAT INFORMATION WE COLLECT

In order to provide you with our products and services and to keep you informed, we collect a variety of information about you when you interact with us or use our products, services, websites and applications. This information is used to efficiently provide our services to you on a cost-effective basis and to tailor our products and services to best meet your needs and interests.

Information You Provide to Us Directly

We collect information you provide to us when you establish a customer or user account, register to use and/or connect to certain of our services (e.g., Spectrum WiFi), and when you contact us or otherwise communicate with us, such as:

- contact information (e.g., name, address, email address, and phone number);
- usernames, passwords, images (e.g., driver's license photo), biometric data (e.g., voiceprints), and other authenticating information associated with a Spectrum account;
- information about the types of services to which you subscribe, orders you place or downloads of Spectrum applications (e.g., the Spectrum TV application) you make through a Spectrum product or service, the service options you have chosen, and any customized setting you have created;
- information about your payment methods, such as your payment card number or bank account information;
- information related to a credit application for a product or service or to protect against fraud, which may include your Social Security number, driver's license number, or other government issued identifier;
- information you provide when you enter contests, respond to customer surveys, or participate in events sponsored by us; and
- information we keep in our records when you correspond or otherwise communicate with us, including through our call centers, online chat sessions, and through social media.

Information We Collect Automatically

When you use the Spectrum Services, we automatically collect information through cookies and other technologies, such as:

- information from any device you use when you interact with us, including but not limited to the device identifiers, the number, types, and status of devices connected to our network, network addresses, operating system, and technical configurations of the equipment used;
- network traffic data;

- performance and support data; and
- information about your use and the operation of Spectrum products, services, websites, applications, and their features.

We also may collect usage information about:

- usage information about the channels, programs, and advertisements to which your device was tuned when you subscribe to our video service in order to provide you video content ("Video Usage Information");
- information we collect based on our provision of Spectrum Internet service, such as routing traffic to allow you to traverse from one website to another website, in order to provide internet service and connect you to the other internet-based services you request; this can include the amount of data used, device identifiers, and quality of service (i.e., quality of the signal) from customers who use our company-issued routers as part of our provision of Spectrum Internet service (collectively, "Internet Usage Information");
- call records, including the phone numbers that you call and that call you, and the times and dates of those calls, the number of text messages sent and received, when you subscribe to our phone and/or mobile service ("Call Detail Information");
- usage information about your use of the Spectrum Mobile network, the use of your mobile device, technical and network performance information, and location information when your device communicates with cell towers, Wi-Fi routers, access points, and/or with technologies used by the Global Positioning System ("GPS") ("Mobile Usage Information"); and
- device information, including your IP address and information about your browser, operating system, and platform type, demographic information through cookies, web beacons, and other tracking technologies, and information about the website that referred you to a Spectrum website, and the website to which we refer you when you leave a Spectrum website.

The information we collect will depend upon the Spectrum Services to which you subscribe. We limit the use and sharing of such information as described in this Annual Privacy Notice and as required by law.

If you subscribe to or use services that require us to transfer or store communications such as a Spectrum email account or a Spectrum voice product that includes a voicemail service, it will be necessary for us to collect the content of those communications to provide you with the service. Additionally, we collect the content of any files you store in our cloud storage services (e.g., Spectrum Cloud DVR) and other information when it is necessary to provide you with the services you use.

Please refer to the Spectrum Internet DNS Privacy Notice, available by visiting our website, to learn more about our data collection and use practices of Domain Name System ("DNS") data associated with the Spectrum Internet service.

Location Information

When you access our network, we may collect general location information, such as the city or zip code that correlates with the license of your device IP address, or more precise geolocation data that indicates where you are at a specific point in time. We may also collect location information when you use some of our services and applications, including precise geolocation information, such as your service address and the location of your Spectrum Mobile device or another device on which you have installed a Spectrum application. For example, when a Spectrum Mobile device connects using an in-home or out-of-home Spectrum WiFi access point, we collect the device's MAC address, the customer's username (if the customer is logged into the My Spectrum App), which is encrypted, and the Spectrum WiFi access point's geographical location. You can prohibit the collection of this information through your device's settings, but it may limit certain functions and features of the application.

Information Obtained from Third Parties

We may collect information from third parties for purposes related to delivering our products and services to you, for analytics and research, or for marketing and advertising our own products and services, as well as for delivering third-party advertising on the Spectrum Platform.

- Information to verify data you have provided and from credit reporting agencies to determine your credit worthiness, credit score, and credit usage.
- Information from content providers and other platform providers when you use your Spectrum account to authenticate your use of Spectrum services through that provider's platform or device.
- Information from research consultants, marketing firms, data quality management solution firms, and programming partners to enhance our marketing and advertising programs. Collected data may include demographic information, as well as personal interest data, to help us construct audience segments, deliver advertising, and evaluate the effectiveness of a given advertising campaign.

Some of these communications may be directed to you because of the Spectrum services to which you subscribe or your interactions on the Spectrum platform, and some may be directed to you because of your general geographic location. For more information about how to update your communication preferences please review the "What Choices You Have to Control the Use of Information by Spectrum" section of our privacy policy, available at www.spectrum.com/privacy.

To Create Business and Marketing Reports

We use the information we collect to create business and marketing reports (the "Reports") to provide insights into what products and services our customers are using, how long they are using our products and services, how some of our services are accessed, and what additional products and services may be of interest to our customers. We use these Reports for our own internal purposes, such as improving our products and services, determining what content to provide our customers, measuring the effectiveness of our marketing and advertising, and other research and analytics. We may also share these Reports with third parties. Any Reports shared with a third party for the third party's own use will only contain de-identified and/or aggregated information, unless we have your consent to share your personal information.

Advertising Generally

We use some of the information we collect to make the marketing and advertising you see on the Spectrum platform more relevant to you, as well as to market the Spectrum products and services on other websites and platforms. For information about how to limit the use of information for these purposes, please review the "What Choices You Have to Control the Use of Information by Spectrum" of our privacy policy, available at www.spectrum.com/privacy.

Addressable Advertising on our Cable System

Some of the advertisements you see on cable channels are placed by us. Some of those advertisements are placed in particular shows or channels; others are shown in particular geographic areas. Some of our cable advertisements will ask for your permission to take certain actions, like mail you information or allow the advertiser to contact you. In some areas we will be able to address advertisements to your household through our cable system that will be more relevant to your interests based on your Video Usage Information and/or Combined Information. For more information about how to manage your advertising preferences, please review the "what choices you have to control the use of information by Spectrum" of our privacy policy, available at www.spectrum.com/privacy.

Online Advertising and Customization

We may use information that we or third parties learn about you from your online interactions (e.g., search or purchase history) to deliver or cause to be delivered to you advertisements that may be more relevant to you. For more information about how to manage your advertising preferences, please review the "Online Advertising and Customization" section of our privacy policy, available at www.spectrum.com/privacy.

WITH WHOM WE SHARE INFORMATION

We share information with others when it is necessary to provide you with Spectrum Services and in the other circumstances described below. We do not sell or otherwise share information that personally identifies our customers, including Internet Usage Information, Video Usage Information, or Call Detail Information, to third parties for those third parties' own use.

Account Holders and Other Authorized Users

We may disclose any information about a customer's account and use of a service to the primary account owner. The primary account owner may also authorize other users to access information on the account.

Charter/Spectrum Related Businesses

We may share information about you with other Charter and Spectrum-related companies in order to provide the services, or to make your Spectrum experience more streamlined. We may also share information about you with these related companies for their own marketing purposes when legally permitted to do so.

Service Providers

We may disclose your information to service providers who perform business activities on our behalf such as billing and collections, payment processing, analytics and research, marketing, service delivery and customization, maintenance and operations, and fraud prevention. These third-party service providers are authorized to use your personal information only as necessary to provide services to Spectrum.

Governmental Entities or Pursuant to Valid Legal Process

We may be required by law to disclose information about you, including information that personally identifies you, your use of our services, and the content of your communications, to governmental entities upon receipt of valid legal process. These disclosures may be made with or without your consent and with or without notice, in compliance with the law, including the terms of process.

We may also disclose personally identifiable information about you, without your consent, to protect our customers, employees, or property; in emergency situations; to enforce our rights in court or elsewhere, or directly with you, for violations of service terms, conditions or policies; and/or as otherwise required by law.

Third Parties

We do not sell or share information that personally identifies our customers with third parties for their own marketing or advertising purposes.

If you subscribe to our telephone service, your name, address and/or telephone number may be transmitted via Caller ID, published and distributed in affiliated or unaffiliated telephone directories, and available through affiliated or unaffiliated directory assistance operators. We take reasonable precautions to ensure that non-published and non-listed numbers are not included in the telephone directories or directory assistance services, although we cannot guarantee that errors will never occur. Please note that Caller ID blocking may not prevent the display of your name and/or telephone number when you dial certain business numbers, 911, 900 numbers or toll-free 800, 855, 844, 866, 877 or 888 numbers.

Some of the advertisements we display may invite interactive or transactional follow-up from you. When you interact with those advertisements, we may share your contact information with the advertiser for the purpose of fulfilling your request.

If we enter into a merger, acquisition, or sale of all or a portion of our assets, we may transfer your information as part of the transaction.

WHAT CHOICES YOU HAVE TO CONTROL THE USE OF INFORMATION BY SPECTRUM

You have choices in controlling how we use and share your information for marketing and advertising purposes. For instance, you can always choose whether to receive promotional emails or text messages. When you visit our websites, you may opt out of interest-based advertising, and when you use our mobile applications, you can limit the use of ad trackers. You may visit our [Privacy Preferences](#) page to manage your marketing communication and privacy preferences, including, for example:

- to be added to our marketing communication preferences list (e.g., "Do Not Call"), which will limit the marketing and advertising messages you receive from us about Spectrum products and services;
- to limit our use of customer proprietary network information ("CPNI"), such as Call Detail Information, for marketing and advertising of our own products and services; and

Some of the preferences will only apply when you subscribe to Spectrum services and may require additional account information. If you make changes to your contact information or get a new account, you will need to review and update your privacy preferences.

If you are a Spectrum customer and do not have access to Internet service, you may call us at the number provided on your monthly bill statement to be added to any of these lists.

If you are not a Spectrum customer and would like to add your name to marketing opt-out lists, please call 833-845-3726.

Cookies, Tracking Technologies, and Interest-based Advertising

Some of our websites use web analytics services, such as Google Analytics and Adobe Analytics. To learn more about Google Analytics and Adobe Analytics, including how to opt-out of tracking of analytics, please visit the following links managed by Google (<https://policies.google.com/technologies/partner-sites>) and Adobe (<https://www.adobe.com/privacy.html>).

Many of the third-party advertisers that place tracking tools on the Spectrum websites are members of programs that offer you additional choices regarding the collection and use of your information. You can opt-out of mobile app tracking by certain advertising networks through your device settings. Please note that opting-out of advertising networks services does not mean that you will not receive advertising while using our websites.

Some of our Spectrum Services may include Nielsen's proprietary measurement software, which will allow you to contribute to market research, like Nielsen's TV Ratings. To learn more about Nielsen's privacy practices, including how you can opt-out of Nielsen's collection and use of this measurement data, please visit www.nielsen.com/digitalprivacy.

Location

You can manage the collection of your location information through your device's settings.

CPNI

When you initiate an interaction with one of our representatives, such as a phone call or a chat, we may ask for your oral consent to our use of your CPNI for the purpose of providing you with an offer for other products or services. If you consent, we may use your CPNI for the duration of the interaction to offer you those additional products and services.

You may opt-out of our use of your CPNI for marketing purposes by calling us at the number provided on your monthly billing statement or visiting our Privacy Preference page at www.spectrum.com/policies/your-privacy-rights-opt-out. If you opt out, you will experience no effect, now or in the future, on how we provide any services to which you subscribe.

HOW WE PROTECT YOUR INFORMATION

We use reasonable security, including technical, physical and administrative controls, to secure the information we collect and maintain. However, we cannot guarantee that these practices will prevent every unauthorized attempt to access, use, or disclose Spectrum information.

HOW WE PROTECT CHILDREN'S PRIVACY

We do not knowingly collect personal information from anyone under the age of 16. If you believe that a child under 16 years of age has provided us with personal information, please contact us at the address below.

WHAT YOUR RIGHTS AND OUR LIMITATIONS ARE UNDER FEDERAL LAWS

The Cable Act and Personally Identifiable Information

You have the right to know about the personally identifiable information we collect and how we use it; under what conditions and circumstances and the types of persons and entities to whom we may disclose personally identifiable information; how long we maintain personally identifiable information; the limitation on our ability to collect and disclose personally identifiable information collected from the cable system; and a subscriber's rights under the Cable Act concerning personally identifiable information and its collection and disclosure.

Personally identifiable information is information that identifies a particular person; it does not include de-identified or aggregate data that does not identify a particular person or persons.

The Cable Act permits us to use the cable system(s) to collect personally identifiable information about our subscribers when it is necessary to render the Spectrum Cable Services or other services we provide and to detect unauthorized reception or use of the Spectrum Cable Services. We may use the cable system to collect personally identifiable information about a subscriber for additional purposes with a subscriber's prior written or electronic consent.

The Cable Act permits us to disclose personally identifiable information if the disclosure is necessary to render, or conduct a legitimate business activity related to, the cable service or other services provided; required by law or legal process; or limited to your name and address under a "mailing list" exception, as described in this Privacy Policy. **We do not sell or share customer names and addresses with third parties for their own marketing or advertising purposes.**

If you subscribe to a Spectrum service that is governed by the Cable Act, we will maintain information that personally identifies you and that is associated with your use of such service for as long as necessary for the purpose for which the information was collected, which may be as long as the duration of your subscription and after you have terminated your subscription, in some instances.

You can contact us with any concerns you have regarding the handling of your personally identifiable information. You may also enforce the limitations imposed on us by the Cable Act with respect to your personally identifiable information through a civil lawsuit in federal district court. Your Spectrum Residential Services Agreement contains your agreement that, to the extent permitted by law, any claims under the Cable Act may be enforced in arbitration.

The Communications Act and CPNI

Information about the quantity, technical configuration, type, destination, location, and amount of your use of the Spectrum telecommunications services, and information about your Spectrum phone service that is contained on your bill, when linked to an identifiable customer of such service, is known as customer proprietary network information or "CPNI." CPNI does not include a customer's name, address, and telephone number. You can limit our use of CPNI as described in this policy.

HOW TO ACCESS AND CORRECT THE INFORMATION IN OUR RECORDS

We strive to keep our records accurate. If any of your information changes, please notify us immediately so we can update our records.

If you subscribe to Spectrum cable or internet services, and you would like access to the personally identifiable information we maintain in our business records, please send a written request to your local office or call us at the number provided on your monthly billing statement and we will make an appointment for you to visit during normal business hours. You will only be permitted to examine records that contain personally identifiable information about your account. If your review reveals an error in our records, we will correct it. We reserve the right to charge you for the cost of retrieving and photocopying any documents that you request. You may also be able to access certain information about you or your account by contacting one of our customer service representatives at 833-845-3726, or by logging in to your online account.

If you make a written request for a copy of your CPNI, we will disclose the relevant information we have to you at the address we have for your account, or to any person authorized by you, if we reasonably believe the request is valid. For telephone and online access to your CPNI such as outbound call detail records, we require that you first authenticate your identity using a password established using our online system. We generally do not provide our customers with records of calls received, records that are only in our archives, other records that we do not furnish as part of a telephone bill, web-browsing history, IP address logs or any other information that we do not create or maintain in the ordinary course of business unless there is a court order or similar legal process. If there are errors in names, addresses, or telephone numbers in our vendors' directory lists, or if you have been omitted from the directory, the correction cannot be made until the next available publication. Please understand that we may have no control over information appearing in directory lists or provided by directory assistance services which we do not own.

YOUR RIGHTS UNDER STATE LAW

If you are a resident of, California, Colorado, Connecticut, Maine, Nevada or Virginia, you may have additional rights under applicable state law. You can learn about your rights by visiting <https://www.spectrum.com/policies/privacy-policy> and reviewing the sections related to your state of residence.

WHAT HAPPENS IF WE CHANGE THIS PRIVACY POLICY

The most current version of our Privacy Policy is published and maintained at www.spectrum.com. The needs of our customers and the business may change from time to time and, when that happens, we may need to modify our Privacy Policy. Any changes will be posted at this website. If we make any changes that materially affect your rights or the ways in which we use or disclose information, to the extent required by applicable law, we will make reasonable efforts to notify you of the changes.

Important to know

Your next meter reading on or after: Dec 1

Please be sure we can safely access your meter. Don't worry if your digital meter flashes eights from time to time. That's a normal part of the energy measuring process.

Your electric service may be disconnected if your payment is past due

If payment for your electric service is past due, we may begin disconnection procedures. The due date on your bill applies to current charges only. Any unpaid, past due charges are not extended to the new due date and may result in disconnection. The reconnection fee is \$13 between the hours of 7 a.m. and 7 p.m. Monday through Friday and \$14 after 7 p.m. or on the weekends.

Electric service does not depend on payment for other products or services

Non-payment for non-regulated products or services (such as surge protection or equipment service contracts) may result in removal from the program but will not result in disconnection of electric service.

When you pay by check

We may process the payment as a regular check or convert it into a one-time electronic check payment.

2	<p>Service Labor - 1 hour minimum (ahartman - Andrew Hartman - Jul 11, 2023 11:15 AM</p> <p>Spoke to HID, IDProducer and S2. S2 integrated IDProducer and is who we need to call if there's an issue with IDProducer in the future.</p> <p>Couldn't load IDProducer and kept getting a failed server notification. Went into the configuration and checked settings, IP and port. Also checked in s2, but the connection failed there as well. Checked IPV4 and it was static to proper address of Badging server.</p> <p>S2 checked on server and port and it failed. They suggested firewall was blocking it. Checked in Araknis and it was good there. Spoke to CB and created a firewall rule in windows defender for the server port. Also allowed morsani 5 the Ethernet connection used for the server in AVG internet security program.</p> <p>The connection was restored and IDProducer began working again.</p> <p>Also fixed an issue with the men's door reader per Kellie.</p> <p>Tested and working.</p> <p>DanielG - Daniel Gainza - 7/7/2023 12:31:55 PM -</p> <p>S2 Printer is offline again)</p>
